**MEMORANDUM FOR: Honorable Dean Rusk  
Secretary of State**

Pursuant to our discussion yesterday, I agree with your suggestion that we not brief the North Atlantic Council on the Soviet and United States satellite photographic effort. As an alternate, arrangements should be made to brief a few of the very senior people, including Heads of State. I have discussed this matter with the staff and have initiated the preparation of a briefing in which is included, among other things, some typical photographs.

Unless there is some great urgency, I would suggest that this briefing be done after the middle of September. Otherwise, many important personages will be on vacation and therefore unavailable. Also, since I have a number of Agency issues in various European capitals, I could present these briefings myself if this is agreeable to you. Please advise so I may plan accordingly.

/S/ John
